Ans. Weeds

Q.4 Short Ques / Ans

Q.1 What are weeds? Why should we remove them?

Ans The unwanted plants which grow with the crops are called weeds. They have to be removed as

they harm the crops.

Q.2 What is harvesting?

Ans When the crops are ready, they are cut and collected. This is called harvesting.

Q.3 How do farmers plough the fields?

Ans Farmers prepare the soil by ploughing for which they use animals or tractors to pull the ploughs.

Q.4 Why do farmers add manures and fertilisers to the soil?

Ans Farmers add manure and fertilisers to the soil to make it rich in minerals.
